# Preface

The biblical poetry is an important tool that the sacred authors utilized in the Holy Bible.

It makes God's messages, clearer and more effective in our lives.

We, at the Catechism classes have studied some of the biblical poetries and were challenged to create our own poems based on the Salvation History.

This booklet presents the poems of the Catechism students as part of their learning of the first part of the Catechism contents. I, as a teacher, have compiled them and have included my own poem as well.

For final consideration, I also present some of the activities the students performed as part of their learning.

I want to express my deep gratitude to Jesus and His Church. Because He has provided me the opportunity to teach these children.

A special thanks to my family as well as to the students' parents for their great example and incentive to these fantastic students.
